

RD4 NITRILE LAYFLAT DISCHARGE HOSE

The RD4 model is an oil resistant lay-flat discharge hose made from a Nitrile/PVC blend. It's used in light oil and chemical applications.

It resists abrasion and weathering and is lighter and less bulky than most rubber discharge hoses.

Standard assemblies come in 50 ft lengths with aluminum cam and groove fittings or NPSH/NST fittings but other fittings and lengths up to 100 ft are available.
